

WELCOME TO THE
21ST CENTURY OF MENTAL WELLNESS

SOUL APPY mind pod

The Next Generation of Stress Reduction

An experiential, innovative, and real-time therapeutic environment entirely designed to de-escalate anxiety.

About Us

CARA HEWETT, M.A. TRACY ZBORIL, M.S.W.

Cara and Tracy are psychotherapists with over 50 years of combined experience. They became frustrated with years of practicing traditional talk therapy and its limitations and set out to find a better way.

New discoveries in the field of neuroscience allowed them to understand that the mind is capable of rewiring itself for positivity, a process known as neuroplasticity. This ignited a passion in them for bridging science, psychology and spirituality, resulting in the development of the Soul Happy Technique.

They are co-founders of Soul Happy, a company aimed at revolutionizing the field of mental health into a lifestyle approach for humanity, making mental fitness and mind exercises a part of everyday life to instill increased positivity and a higher potential.

The Science Behind Soul Happy

THE SCIENCE BEHIND IT

who	This deeply researched and science-based technique has already changed the lives and businesses of high-performing athletes, C-suite executives, and elite business owners.
what	Through the use of evidence-based mind exercises, we clear past negativity that holds us back and then we program a winning confidence that results in the ability to reach our highest potential.
how	New discoveries in neuroscience allowed for a radical novel approach to treating behavior. We now know that the mind can rewire itself through process called neuroplasticity. We do this through evidence based mind exercises that ultimately reprogram the mind for positivity and higher potential.
why	Cara and Tracy saw a need for more immediate, effective and quick relief from anxiety and stress so prevalent in modern day life. This scientific approach does just that, making mental wellness a lifestyle change through practicing mental fitness.

Three-Pronged Approach

KEYS TO MENTAL WELLNESS

1 Soul Happy Technique

2 Interactive therapeutic workshops & retreats

3 mind pod

Soul Happy Technique

SOUL HAPPY SESSIONS

Online therapeutic self-directed technique done in the privacy of your own home

Session 1: How Your Mind Works

For the technique to be effective, Cara and Tracy both believe it is pertinent for individuals to have an in-depth understanding of how their minds work and the neuroscience behind how the technique works as well.

Session 3: Expanding Your Awareness

This session is about getting in touch with the real you and the state in which your strengths exist in their purest forms; the you who was there before you were programmed with all those negative memories over time, from your childhood to your adult life.

Session 2: Clearing the Cluster

This session goes directly to your subconscious mind to clear out the negative emotions, failures and disappointments tied to certain memories that have all accumulated into a giant cluster.

Session 4: Reprogramming Through Sensory Imprinting

Once the negativity cluster is cleared out and you're working with your true self, this session then reprograms the cleared space to fill it up with positive, winning scenarios.

Mental Rehearsal

The conscious mind needs repetition to form a new habit. Mental Rehearsal ensures repetition for the tools used in the technique for it to become a life-long habit.

Immersive Workshops & Retreats

An interactive therapeutic workshop for high performers

What will I gain from this workshop?

Speaker Session (live & online)
Therapist in a Box:

Includes sensory reprogramming tools, author signed book, and use of stereo headsets

- A liberating perspective of how worry, fear, and guilt (all of which cause anxiety) are a colossal waste of time
- You will have cleared out the negativity sabotaging your success, thereby allowing space to program positive winning scenarios
- You will be given tools to ensure your ongoing transformation

SOUL APPY mind pod

We identified an urgent need for immediate stress reduction in today's society.

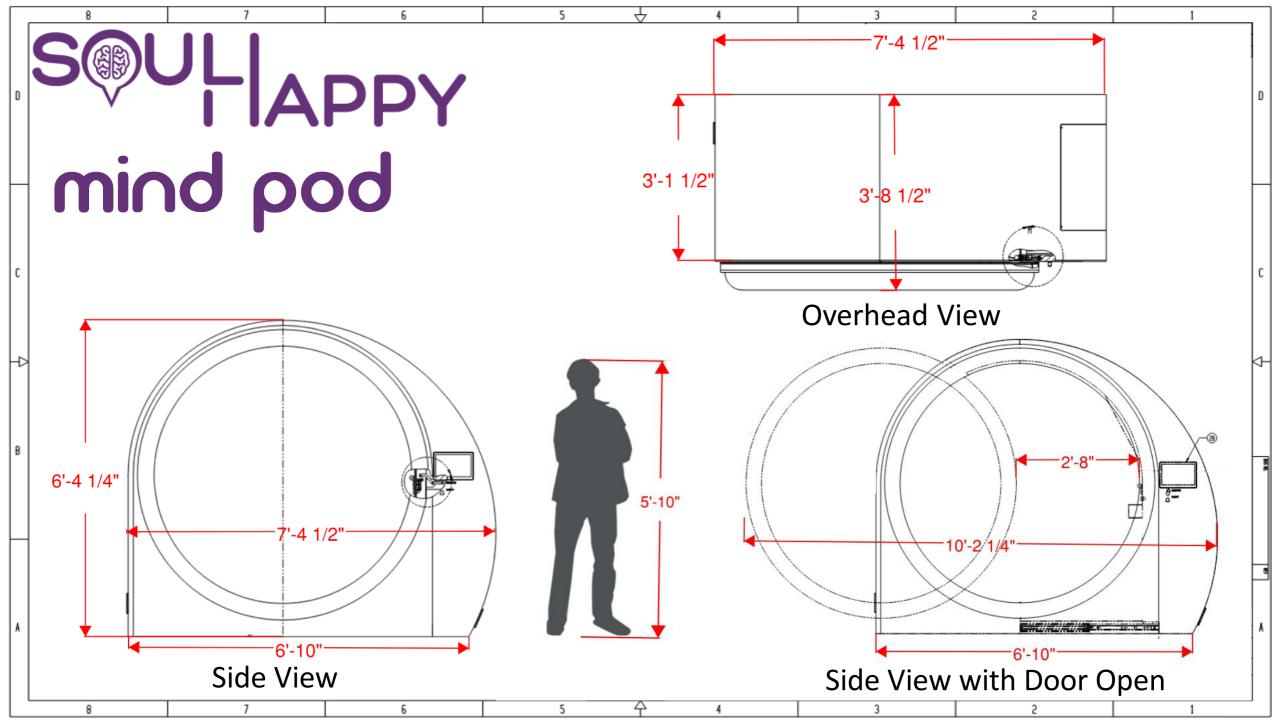

The mind pod offers privacy to do short directive mind exercises specific for stress reduction.

SOUL APPY mind pod

Discover an experiential, innovative and real-time therapeutic environment entirely designed to de-escalate anxiety. The Soul Happy Mind Pod is an enclosure that allows for an engaging sanctuary-like environment, while a series of evidence-based directive videos provides an immediate reduction of stress.

SOULIAPPY mind pod equipment

- 1 32" Monitor
- 2 Headrest Speakers
- 3 LED Lighting Bar
- 4 Sound bar
- 5 Ergonomic Seating
- 6 7" & 10" Touch Screen Display
- 7 LED Lighting
- 8 AV Media Plays
- 9 Air Purifier
- 10 Oculus Glasses

*Oculus Glasses to be used for same immersive experience without Mind Pod

SOUL APPY mind pod FRESH AIR MOBILE

Our pocket-sized purifier provides clean, healthy air when you're on the go; significantly reducing surface and airborne contaminants, odors and pollutants in the areas where you spend your time.

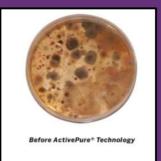

WHAT'S POLLUTING YOUR AIR?

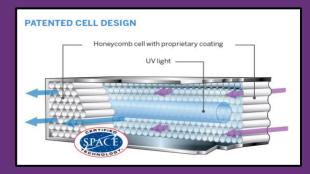

- VOCs. smoke and odors
- Pollen, dust and dander
- · Residue from cleaning chemicals
- Mold and fungal spores
- Poor indoor air quality
- Exhaust from other vehicles
- Stale air from the air conditioner/ heater

WHAT IT DOES

- Our proprietary ActivePure®
 Technology destroys up to 99% of surface and airborne contaminants
- Touch sensitive settings to provide ease of operation and function
- Disinfects surfaces and air, removes VOCs, smoke and odors
- Reduces airborne contaminants and allergens that can trigger asthma and allergy symptoms
- · Freshens air and removes odors
- Reduces dirt and dust from the air to make cleaning easier
- Creates healthy, pure indoor spaces

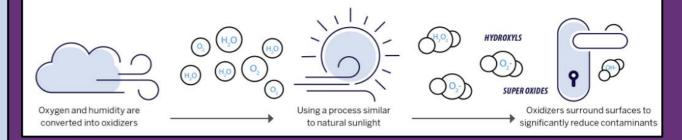

SO WHAT IS ACTIVEPURE® TECHNOLOGY?

ActivePure TECHNOLOGY

ActivePure is based on technology originally developed by NASA. It is proven to reduce over 99% of surface microorganisms and dramatically reduce airborne contaminants and allergens in the air.

In 2017, ActivePure® Technology was inducted into the Space Technology Hall of Fame by The Space Foundation.

HOW ACTIVEPURE® WORKS

ActivePure® has been tested in independent labs and proven to reduce and eliminate viruses, bacteria, mold and fungion surfaces and in the air.

It works by harnessing microscopic oxygen and water molecules in the air that then go through our purification units, which are equipped with an ActivePure® honeycomb matrix.

While inside the matrix, the molecules are transformed into friendly-yet-powerful oxidizers. As they're released back into the air, these supercharged ActivePure® molecules seek and rapidly destroy contaminants, fungi, mold, and odorcausing bacteria – even ones that try to hide in hard-to-reach places.
